

## NOTICE

### LANDFILL ACCESS CARD SYSTEM

#### **How the new access card system works:**

**Residents/Tenants:** Stop and report to the Landfill Attendant. Show your access card and photo ID that matches the address on the access card. Anyone living in the household whose address on their ID matches the access card and presents the access card will be allowed access. If you also run a farm and have employees that may access the landfill site on your behalf, please see Businesses.

**Non-residents (seasonal residents, vacant land owners):** Stop and report to the Landfill Attendant. Show your access card and photo ID. The ID of the person accessing the Landfill must match a name that is listed on the Authorized User Form.

**Businesses (this includes Farm Properties with employees):** Stop and report to the Landfill Attendant. Show your access card and photo ID. The ID of the person accessing the Landfill must match a name that is listed on the Authorized User Form.

There are *Special One Time Use Forms* available for those times when the owner of a property is unable to attend the Landfill Site and is authorizing another person to access the Landfill on their behalf. Situations that may require such a form are: owner is on vacation and has a house sitter; owner of a property has passed away and family is cleaning out the house. Please call the Municipal Office for more information if this type of form is ever required.
