1.0 INTRODUCTION

The Government of Ontario introduced the Ontarians with Disabilities Act, 2001 (ODA) with the purpose of improving access and opportunities to people with disabilities. The primary focus of this legislation was to identify, remove and prevent barriers so that people with disabilities can engage in full participation. Annual accessibility plans became a requirement under this legislation in order to ensure that policies, programs and services were reviewed to remove barriers and prevent new barriers from being created. The ODA legislation has been helpful with the identification and removal of barriers throughout the province. However, the government recognized that Ontario was still not fully accessible. As a result, The Accessibility for Ontarians with Disabilities Act (AODA) was passed in 2005. Its goal is to have an accessible Ontario by 2025. In order to achieve its objective, the AODA will establish accessibility standards in the areas of:

- Customer Service
- Transportation
- Information and Communications
- Employment
- Built Environment

The Customer Service Standard, Regulation 429/07 (CCS) mandates compliance of the public sector and private sector industries in the following areas use and treatment of support persons, service animals, assistive devices, alternative formats of materials, methods of notification of service disruption and collection of feedback, as well as development and deployment of staff training.

In June of 2011, the Ontario Government passed Regulation 191/11 - The Integrated Accessibility Standard (IASR). This regulation sets out a variety of general obligations relating to employment, communications and transportation. The regulation sets out the requirements for each of the three standards as well as general requirements with respect to developing accessibility policies and plans, training employees and volunteers, as well as considering accessibility when purchasing goods or services.

1.1 Background

The preparation of the Municipal Accessibility Plan is a requirement for local governments in Ontario under the provisions for the Ontarians with Disabilities, 2001 (ODA), and the Accessibility for Ontarians with Disabilities Act (AODA), 2005 of the Province of Ontario. Further, Municipalities are required to prepare annual updates to the Municipal Accessibility Plan identifying barriers and the action taken to remove those barriers. This Plan is formally adopted by Council and presented to the Public. Legislation requires that Municipalities with a population over 10,000 must establish an Accessibility Advisory Committee. The Municipality of Oliver Paipoonge has a population of less than 10,000 and is not required to establish a Committee.

1.2 Objectives

The Objective of this Plan is to:

- Seek to identify, prevent and remove barriers to accessibility for persons with disabilities, through developing a standardized process and tools to help identify and address accessibility barriers.
- Ensure that all people have access to accessible goods, services and facilities.
- Allow all people to have access to alternate formats and communication supports for any publically accessible information the Municipality produces.
- Implement and maintain a recruitment process that is free of discrimination and considers accommodations for those in need.
- To identify opportunities to improve accessibility and implement reasonable transportation solutions.

1.3 Actions and Undertakings

- Develop policies, procedures and programs
- Incorporate accessibility into project and program planning
- Develop, implement and regularly review training programs
- Consult with the public and organizations/agencies
- Implementation of feedback process
- Review and update the Accessibility Plan annually

2.0 DEFINITIONS

2.1 Definition of a Disability

The Ontarians with Disabilities Act, ("ODA"), 2001, Accessibility for Ontarians with Disabilities Act ("AODA"), 2005 and the Integrated Accessibility Standards Regulation ("IASR") use the definition that appears in the Ontario Human Rights Code.

A disability means:

- a) Any degree of physical disability, infirmity, malformation or disfigurement that is caused by bodily injury, birth defect or illness and, without limiting the generality of the foregoing, includes diabetes mellitus, epilepsy, a brain injury, any degree of paralysis, amputation, lack of physical coordination, blindness or visual impediment, deafness or hearing impediment, muteness or speech impediment, or physical reliance on a guide dog or other animal or on a wheelchair or other remedial appliance or device; or
- b) A condition of mental impairment or a developmental disability; or
- c) A learning disability, or a dysfunction in one or more of the processes involved in understanding or using symbols or spoken language; or
- d) A mental disorder; or
- e) An injury or disability for which benefits were claimed or received under the insurance plan established under the Workplace Safety and Insurance Act, 1997; ("handicap") 2.0

Note: For other definitions, please refer to Section 2 of the Ontarians with Disabilities Act, 2001.

2.2 Definition of a Barrier

A "barrier" is anything that stops a person with a disability from fully taking part in society because of that disability. Some barriers include:

- Physical barriers - e.g., a step at the entrance to a store;
- Architectural barriers - e.g., no elevators in a building of more than one floor;
- Information or communications barriers - e.g., a publication that is not available in large print;

- Attitudinal barriers - e.g., assuming people with a disability cannot perform a certain task when in fact they can;
- Technological barriers such as traffic lights that change too quickly before a person with a disability has time to get through the intersection; and,
- Barriers created by policies or practices - e.g., not offering different ways to complete a test as part of job hiring.

3.0 CORPORATE ACTION PLAN
